Who: Dr. Kenneth B. Liegner|

What: Lyme & Tick-Borne Diseases

“What you Need to Know” Discussion with Q & A

Book Signing with 50% profits to ~~Amenia~~ Amenia Free Library

Where: ~~Amenia~~ Amenia Town Hall

When: Saturday, April 1, 2017

Time: 10:00 - Noon

It has been said that Dr. Kenneth B. Liegner has been practicing for over 25 years and has treated patients who come from near and far. “Practicing” is not an inclusive enough term for the battle Dr. Liegner has waged to advance what we know about Lyme and other tick-borne diseases. He recently published an insightful book chronicling his journey down the treacherous path of treating patients with tick-borne disease. The book is a compendium of case histories, scientific studies, and evidence that Lyme disease can persist despite antibiotic treatment. He has been an advocate for many patients, taking on the insurance companies who use dated, incorrect guidelines to deny treatment. And all along, he has called for further scientific work to understand this disease and to formulate a cure.

Sponsored by the ~~Amenia~~ Amenia Free Library
& Harlem Valley Chamber of Commerce
