

TOWN OF AMENIA TOWN BOARD

4988 Route 22, AMENIA, NY 12501
(845) 373-8860 www.amenia.gov

February 1, 2018
Supervisor's Report

1. On January 24, 2018 at 10:00 am I attended the New York Main Street (NYMS) Application Exit Conference Webinar. This presentation reviewed the content of the 2017 NYMS application, identified common deficiencies in unsuccessful applications and provided tips for improving an application. This presentation is designed to provide detailed feedback for unsuccessful 2017 applicants, and it is the most detail application preparation presentation conducted during the year. This information will be helpful since the town was not awarded the \$350,000 grant we applied for this year. In addition I went to the annual NYSEG meeting for Supervisors and Mayors on January 24, 2018 at 1:30 pm. Issues discussed were better preparation by NYSEG for extreme weather events and improved notification regarding outages.
2. Town of Amenia Highway Garage Update – the surveys for both parcels have been completed and sent to the DEC and OGS surveyors for comments which have not been sent to the town yet.
3. Old Amenia Landfill – received amended Environmental Easement final approval from the Attorney General's office and it has been filed in the Dutchess County Clerk's office. The recording notice will be sent to the town. Once the Environmental Easement is recorded the DEC will either de-list the Old Amenia Landfill which is currently listed as Site #2 – Hazardous Waste Site. The other option that the DEC has is to lower the classification to #4 or #5 which means that the site has been cleaned up. Once the listing has been changed by the DEC then we will be able to investigate making the area a passive use recreation site.
