Workman Compensation  
for Building Permits

---

New York State Workers' Compensation Board requires one of two forms to be used for proof of Workman's Compensation.

**BP-1 (3-99) Affidavit of Exemption to Show Proof of Worker's Compensation Issuance Coverage for a 1, 2, 3 or 4 Family, Owner Occupied Residence.**

**OR**

**C-105.21 (8-98) Worker's Compensation Board Statement for a Government Entity that a Business does not require Worker's Compensation and/or Disability Benefits Coverage.**

State law require proof of Worker's Compensation before a Building Permit can be issued. The forms are self explanatory and need to be submitted with each Building Permit application.
