

FOR IMMEDIATE RELEASE

NYSEG REMINDS CUSTOMERS THAT NEW YORK HEAP ENROLLMENT HAS BEGUN

The Home Energy Assistance Program (HEAP) can help eligible New Yorkers heat and cool their homes

BINGHAMTON, NY — November 10, 2022 — With colder weather approaching, [New York State Electric & Gas \(NYSEG\)](#) is reminding customers that enrollment for New York’s Home Energy Assistance Program (HEAP) has begun as of November 1, 2022.

“With energy costs on the rise, we encourage our customers to look into all assistance programs available to them and to apply before the winter heating season really gets going,” said Terri VanBrooker, vice president of Customer Service for NYSEG. “HEAP funds are available on a rolling basis, so there is a sense of urgency for eligible customers to enroll as soon as possible.”

NYSEG is urging customers to take steps to manage their energy bills this winter due to market conditions that have elevated energy supply prices. NYSEG does not own generation but procures energy on the open market, which has experienced a rise in fuel prices due to supply constraints and global events. The company does not realize any financial benefit from supply charges, as supply charges are passthrough costs that represent the actual cost of purchasing the energy to deliver to customers.

Customers who anticipate the need for heating assistance should take action now to determine their eligibility for HEAP and get enrolled before the cold weather sets in. According to the New York Office of Temporary and Disability Assistance (OTDA), the enrollment period for HEAP has begun as of November 1, 2022.

HEAP assists low-income people in paying for the cost of heating their homes. Those eligible may receive one regular HEAP benefit per program year and could also be eligible for emergency HEAP benefits if they are in danger of running out of fuel.

Eligibility and benefits are based on a number of factors, including income, household size, the primary heating source and the presence of a household member who is under age six, age 60 or older, or is permanently disabled.

In addition to regular HEAP, the application window for 2022-2023 Emergency HEAP is scheduled to open January 3, 2023. If you are eligible, the Emergency HEAP Benefit can help you heat your home if you are in a heat or heat related emergency. Emergency HEAP benefits and eligibility are based on income, available resources, and the type of emergency

For more information on how to apply for HEAP or Emergency HEAP, including the necessary income qualifications, customers are urged to visit the [New York State OODA](#) website.

NYSEG is a subsidiary of AVANGRID, Inc.
