## Dutchess County Offers Several Mobile Health Clinics Throughout the Month of April

Our health department's Mobile Health Unit (MHU) is rolling into spring, with stops throughout Dutchess County. At each mobile health clinic, a provider will be on site to assist with general health needs, vaccinations, STI screenings, and more. Our Public Health Education Coordinators will also provide crucial health information, such as proper tick removal, hands-only CPR, and Narcan trainings. Our team can also help you with connection to further care and insurance navigation.

This month, you'll find the MHU on the road on the following dates:
